Reflection:

My football journey started when I was 9 years old. At first I was just a kid trying different sports and seeing what I liked. The more I played football the more I started to love it. I liked being around my teammates and working hard to get better every year.

By the time I got to 8th grade I could really tell that all the work was paying off. I was stronger faster and way more confident than when I first started. I was excited to get to high school because I knew that was where things could get serious.

Once I got to high school I started going to camps so college coaches could see me play. I wanted a chance to play football in college and I knew I had to put myself out there. During my

sophomore year I got my first two offers from North Texas and UTEP. That was a huge moment for me because it showed me that all the hard work meant something.

My junior year my recruiting really started to take off. I had a pretty good season and ended up being ranked the number 4 tight end in Texas. After that I started taking official visits. I went to Kansas and then Kansas State. Both were great but when I visited TCU I knew it was home. After I made my choice I got to enjoy my senior year and had one of the best years a tight end has ever had at Argyle High School.
